

Form Of Debate Will Be Settled At Conference

Meeting At Queens Or Varsity Shortly

DEBATING CONTEST AND IMPROMPTUS

Suitable Prizes Will Be Given to the Winners

At an executive meeting of the Delta Sigma Society which was held yesterday in the Arts Building, it was decided that the next meeting of the debating society would be held on February 12th. This afternoon will be called "Canadian Afternoon". The program for the entertainment will be announced at a later date.

Owing to the lack of clearness in the constitution of the W.L.D.U., a meeting of representatives from the Universities of McGill, Queen's, Toronto, and McMaster will be held to decide what form of debate will be used in future.

Favour Formal Method
Toronto and McMaster favour the open-house or parliamentary style while McGill and Queen's consider the formal method more suited to Women's Intercollegiate Debating. It was announced at the meeting that Kathleen Warren would be sent as the representative for McGill.

The Society will hold an Impromptu Speaking and Debating Contest this Thursday, in the R.V.C. Prizes will be awarded to the best contestants.

The first debate of the Annual Freshie Debates will be held on January 26th at 2 p.m. The subject is "Resolved that the Quakers' Road to a Man's Heart is Through His Stomach." This annual contest is held for a cup, offered by Miss Hurbatt, three years ago. Any woman student of first year is eligible to enter, and all students interested are invited to come to the meeting.

Delta Sigma Society
On Thursday, January 23rd, at 4 p.m. in the Common Room of the R.V.C. the first meeting of the Delta Sigma Society for the New Year is being held.

The feature of the meeting is an Impromptu Speaking and Debating Contest, for which suitable prizes are being offered.

Here is a chance for each and every student in R.V.C. to show her skill in the art of speaking. Each speech will last only two minutes. There is a great variety of subjects which range anywhere from the common place one of the "Weather" to the more elevated and high-class subject of the "McGill Band."

So each student has a chance, if luck is with her, to draw the subject she particularly desires to speak on. Past experience is absolutely unnecessary. Freshies in particular are requested not to be shy. If you have never spoken before, in this or in any other way, you will never learn younger, and you might even win one of the prizes.

All would-be orators are asked to sign the list either in the Arts Building or the R.V.C. as soon as possible. In this as in anything else, the more the merrier.

Arts Building Is Enlivened By Playful Pranks Of Canine Co-Ed As Dog Searches For Excitement

McGILL has many visitors—some are welcome, others are not. That the latter class is very often the more popular was evidenced yesterday morning when the Arts building was the scene of some lively adventures with a "Hoinst" Education Bound.

Possessed with a consuming desire for excitement, education, and social recognition, a husky female pup, in a clever ensemble of midnight chony and tan a la faune, with canine training, found her way into the marble hall of our stately Arts Building.

Like Freshette
Never did anything look more like a Freshette than the lady visitor, who, stunned with inferiorly treated litter and litter in ignorance and shame, but nevertheless she was a smooth dog and a perfect smash with the men. Such a warm friendship she had never known—why! everybody patted or petted her until she must have thought them her kindred.

Scores of invitations were extended

Dictates Of Etiquette Lead To Appointment

Prof. Derick Reviews Incidents In Career At McGill

Students Forced To Do More For Themselves In '90s

Carrie Derick, Emeritus Professor of Comparative Morphology and Genetics, tells in an interview with the Daily, yesterday, how she was the first woman to be appointed to a staff position in the University. Professor Derick graduated in 1890, taking honours in Geology and Mineralogy. She was also awarded the Logan Gold Medal.

"Just before I graduated Sir William Dawson, the Principal, sent for me and asked me if I would take a position of teacher of Mathematics and Science at Trafalgar Institute. He wanted me to remain in Montreal, as he thought there would be opportunities in this work for women, in this city. Thus I taught at Trafalgar and at the same time continued doing advanced work in Botany at McGill.

No Correct Thing

"At the end of a year, Dr. Penhallow, the head of the department of Botany, needed an assistant demonstrator; chiefly because he wanted to have field-work for all his students. At the time it wasn't considered the correct thing for men and women to go on excursions together, so he wanted a woman demonstrator to take the women while he took the men.

"Later on in the year, Dr. Penhallow had to go away, so he asked me to take the advanced classes in third and fourth years, during his absence. This I did. When he returned he asked me if I should like to keep on with the work. I continued it, in addition to the demonstrating work for four years, without any recognition from the University. At the end of that time partly through Dr. Penhallow's influence I was appointed lecturer. I resigned from Trafalgar and from that time I have devoted my whole attention to McGill.

No Laboratory

"When I first began to study Botany at the University there was no Laboratory, but we worked in a room in the Redpath Museum. Later, however, labs were opened on the top floor of the Arts Building. We had no lab-boy or other assistants, thus the students were forced to do more for themselves than they are now.

"Shortly after I had been appointed lecturer I told Dr. Penhallow that I had studied Science in the hope of getting a scientific theory for Evolution. I was quite disappointed at not finding this. What I wanted to do was to start a reading course on the subject, for advanced pupils. This I was allowed to do; so we started with reading Darwin's "Origin of Species." Finally this developed into a reading and lecture course for third and fourth year students.

"In 1901 I became very interested in Mendel's Rediscovery concerning Genetics which was just published. More emphasis being placed on Genetics, the course in Evolution and Genetics became very popular."

Queen's Sponsors Elaborate Revue

KINGSTON, January 20.—Arrangements have been made for a Frolic Revue in the Grand Theatre on Feb. 27th, and 28th. It will be put on by students from Queen's University. Kingstonians will be privileged as first-nighters, while students will be limited to the second night. Miss Sadie H. Nilsson will be directress. Costumes are being secured from Montreal and Hamilton.

Numbers Timed At Alma Mater

Schedule Used in View of Seating Arrangements

PATRONS NAMED

Twelve Dances and Two Extras Include Four Waltzes; Few Tickets Left

Program and patrons to the Alma Mater Dance were announced by the Committee in charge at a late hour last night. All plans have been completed, tickets are selling well, and the Chairman of the Committee feels that he is quite justified in expecting this year's dance of all the faculties to be one to be remembered for its colour, for the crowd attending, and for the inception of arrangements which promise to be more convenient than any of the other methods tried yet.

For the first time the dance will be run on a time schedule. As most of those present will spend the intermissions in the lounge room, this is the only method by means of which anyone may know what is happening when. The first dance will not start till 9.30, but there will be an extra beginning at 9.10. The entire program is as follows:

9.10	Extra	Fox Trot.
9.30	1	Fox Trot.
9.50	2	Fox Trot.
10.10	3	Fox Trot.
10.30	4	Waltz.
10.50	5	Fox Trot.
11.10	6	Fox Trot.
11.30	7	Waltz.
11.45	Supper	
12.30	Extra	Fox Trot.
12.50	8	Fox Trot.
1.10	9	Waltz.
1.30	10	Fox Trot.
1.50	11	Fox Trot.
2.10	12	Waltz.

The following are the patrons and patronesses: Sir Arthur and Lady Currie, Dean and Mrs. Ira MacKay, Dean and Mrs. A. L. Walsh, Dr. and Mrs. A. S. Lamb, Mrs. S. E. Vaughan.

Several table reservations have been made so far, but these are still being received. They are now, however, all to be made at the Tuck Shop. There are still some tickets left, which may be obtained either from the Council representatives in the various faculties, from Class Presidents, or at the Tuck Shop. Work on decorations will begin tomorrow night.

Mining Department Wants Geologists

Supplies Summer Work to About 100 Students

Each year the Geological Survey, Department of Mines, Ottawa, employs about 100 university students for work on field parties during the summer. In order to be eligible for appointment to positions as Student Assistant with the Geological Survey, applicants must be men of good physique and must have completed second year work in one of the special Departments of Geology Mining, Engineering or Civil Engineering in a Canadian University or Mining School, or have taken courses in some other institution necessary to give them a standing equivalent to that required by Canadian Universities or Mining Schools. Only applicants who are studying with the object of becoming professional Geologists, Mining Engineers, or Civil Engineers, will be considered for appointment.

Application forms may be obtained from the Professor of Geology, or Professor of Mining, or upon writing to the Director, Geological Survey, Department of Mines, Ottawa, Ontario.

Captain Berlyn Gives Talk To McGill Flyer

Materials Used In Aeroplane Construction

CLUB HAS FLOWN TWENTY-FIVE HOURS

Capt. Stewart Graham Will Give Lectures in Near Future

Last night in the Macdonald Physics Building Capt. M. V. Berlyn of the Dominion Engineering works gave the third of his series of lectures to the McGill Light Aeroplane Club. The subject of the lecture was "The development of materials used in aeroplane construction." and Capt. Berlyn spoke for nearly an hour and a half on this very interesting subject.

He first explained that different materials have different points beyond which they cannot be stretched or bent and still return to their original form. He pointed out the value of Young's modulus, a mathematical quantity which is different for every material, and which is very valuable in determining to what loads the material can be subjected without danger of permanent deformation. As Capt. Berlyn said in his own inimitable way, "Some bright egg by the name of Young invented it, and it's stuck there ever since."

He then went on to compare the various merits of the different materials used in aeroplane construction. Wood, for example, although much weaker than steel, has the advantage of being much lighter. Due to this fact nearly all aeroplanes were made of wood until quite recently, when the supplies of really good spruce were very scarce and began to run out, bringing the price up to that of duralumin, a very light steel-aluminum alloy. The lightest conceivable aeroplane would have some parts of wood, some of steel, and some of duralumin, but this is not done as it is poor practice from an engineering standpoint to mix the materials of which the aircraft is made more than can be helped. Wood would be best for the wing-structure, where its bulk is not exposed to the wind, but for such members as inter-plane struts duralumin is far superior. The best material for the fuselage would be high-carbon steel, but as it is not susceptible to welding, and as riveting makes too long a job, low-carbon steel is usually used. "The trouble is," said Capt. Berlyn, "that the aeroplane manufacturers don't make the steel tubing any more than the

Expresses Doubt At Fish Story And Loses His Job

Professor Of Biology At Howard College Is Fired

HOLDS WHALE COULD NOT SWALLOW JONAH

BIRMINGHAM, Jan. 20.—Dayton, Tennessee, which gained the dubious distinction of being named "Monkeyville," by convicting a young professor for leading the Darwinian theory of evolution, has a serious rival in Birmingham, Alabama.

Howard College is the stronghold in Birmingham of the Fundamentalists, and its governors requested and received the resignation of Dr. Horace Day, Professor of Biology, whose views regarding the Bible had been condemned as mischievous. The professor, it was alleged, questioned the capacity of Noah's Ark to accommodate two of each species of animals, and spoke disparagingly of Jonah's experience with the whale. He is quoted as writing that his biological studies had convinced him of the impossibility of a whale swallowing a man, or of a man's ability to survive the experience.

Famous Trial
In the famous trial at Dayton, Professor J. T. Scopes was fined \$20 for teaching the theory of man's descent from monkeys, contrary to the anti-evolution law of Tennessee. He afterwards secured a reversal of the verdict on a technicality when he appealed to the Supreme Court. The court reversed the judgement because

Rutherford States World Safe Though Atoms Split

Former McGill Student Killed

LAWRENCETOWN, N.S., January 20.—Isabel Pearson, 17, was almost instantly killed on Friday night on the Port Lorn mountain road when she lost control of the sled on which she was coasting and plunged down the steep hillside into a wall of ice and snow. Miss Pearson lived only a few minutes and did not regain consciousness. Miss Pearson, a daughter of Mrs. (Dr.) Phillip Pearson, had decided to follow her mother's career, in the medical profession, and spent a year at McGill after graduating from high school.

Amendments At Meeting Ratified

Workshop Incorporated Into Players' Club

PRIZE FOR PLAY

Col. Wilfred Bovey Stimulates Members to Become Playwrights

The meeting of the Players' Club was called to order shortly after 5 o'clock yesterday evening in the Union Ball-room when "The Workshop" was officially incorporated into the Players' Club.

In opening his remarks, the chairman, George E. How stated that there was wide scope for dramatic attainment by the members both in the acting and the production. Continuing, he reminded those present that Colonel Wilfred Bovey has offered a prize which shall be of "no intrinsic but of great official value" for the best one-act play written by any member of the club. In order to be able to have the result out as early as possible he urged those who intended to compete, to hand in their contributions before the end of this month.

Substantial Majority
Nominations were then called for, as the office of the 2nd Vice-President became vacant on the resignation of Miss Phyllis M. Lee. The post in future will be held by Miss Alma Johnson who was elected by a substantial majority.

The next big item was the ratification of the recent amendment to the

Berlin Scientists Experimenting on Top of Swiss Mountain

Atoms Have Been Breaking Up Through The Ages

(Daily Special)

CAMBRIDGE, Eng., Jan. 20.—I came to Cambridge troubled with fears lest the two Berlin scientists now on top of a 6,000-ft. Swiss mountain should be able to blow the world to pieces by splitting the atom with 9,000,000 volts of electricity.

Now I have an easy mind, for I have talked to Sir Ernest Rutherford, the famous professor of physics, who has experimented with atoms for years, and knows all their artificial little ways.

"There is no need to worry," Sir Ernest said. "The breaking up of the atom has been going on probably for a thousand million years, and people have not even noticed it, and the world is still safe for democracy."

"The radio-active matter in the earth has been disintegrating certain kinds of atoms steadily on a small scale since the earth was formed."

"In all twelve elements have been shown to be disintegrated by this method."

"The scientists are now trying to produce the results on a larger scale. The German professors want to find whether the electrons, which they would have to produce in a vacuum tube of sufficiently high energy, would have a similar effect. It is quite possible that they can do what they want."

Furious Disturbance
I gathered from Sir Ernest that the Germans want to trap a furious electrical disturbance, induce it to enter a vacuum tube, and there let its worst with any poor little atoms that may have strayed inside.

"It will require a tube of very great length," he said, "in order not to get a spark across."

Sir Ernest laughed at the idea of the world being blown up.

The experimenters themselves will probably know nothing about it," he said.

"We in this country have experimented with voltage of one to one and a half millions. In America they have tried up to five millions, but it all has to be applied to the vacuum tube, and, as I say, that will have to be of extraordinary length."

"If the German scientists can really make the potential and the tube to stand the strain," he summed up, "it will be interesting to see if they can observe anything. It is all hypothetical."

Prof. Rosseland To Speak At Meeting

Addresses McGill Branch of Astronomical Society

A meeting of the Royal Astronomical Society of Canada, Montreal Centre, will be held in the Macdonald Physics Laboratory, McGill University, at 8.30 o'clock next Monday night.

The speaker will be Professor Rosseland, of Norway, an astrophysicist who has recently gained a high reputation for his contributions to the study of the behavior of atoms radiating and absorbing light in the atmosphere of a star. He is at present giving a series of lectures at Harvard, and will address the society on "Variable Stars." Members are invited to bring friends as the lecture is open to the public.

Black Arts Are Expounded For Co-ed's Benefit

Voodooism As Practiced In Haiti

FASCINATION FOR VAMPIRES EXTANT

Spiritualism, Black Magic, and All Accessories Treated

Spiritualism, Black Magic, and all the accessories to the Evil Art furnished the topics of discussion and speculation at the meeting of the House of Commons Club which was held yesterday evening in the drawing-room of the Royal Victoria College. Perhaps the fact that the attendance was not very large was conducive to the atmosphere of mysticism which prevailed. At any rate, those present listened with deep interest to the papers which were read by Miss McLean and Miss Pierce. After the papers were concluded, discussion took place regarding the mysteries of the Evil Art. Next to spiritualism and mediums, vampires seemed to be the most popular subject of the evening. Photographic proofs of the infallibility of spiritual manifestations were exhibited, amid conflicting expressions of scorn or awe on the part of those present.

Black Magic

After the meeting had been opened by Dorothy J. Ross, the first paper, "Black Magic" was read by Miss Pierce, supplemented by extremely interesting excerpts from various books dealing with the subject. The first part of the paper dealt with the fascination that things malignantly supernatural have held for people of all ages and creeds, from the most primitive to the most civilized. The maze of these traditions and folklore present an aspect almost terrifying to the reader, and cause one to become lost in a confusion of horrible fancies which it is impossible to push aside with disbelief, but which cause one to seek to extract from them the grain of truth which seems to underlie them.

The reader then proceeded to illustrate to her audience by examples, some of the inexplicable traditions of the Black Art.

Voodooism

Black Magic, it is well known, is practiced by certain semi-barbarous people at the present. These people accept Christianity, and merge it with the cult of the devil. Reference was made to the recent book "Black Island" by Seabrook. In this book it is shown how Voodooism is practiced in Haiti, and how, at the same time, pictures of the Virgin are to be seen in the temples, and the prayers of the Christians are made use of.

Mediaeval Black Magic is closely related to the study of alchemy

Art's Sophomores Decide On Policy

Dinner Will Be Held in the Near Future

That the next undertaking of the Art's '32 entertainment committee will be another dinner, which will in all probability be held in a downtown establishment, was the almost unanimous decision returned at a class meeting held yesterday.

The class treasurer, Chic Davy, gave the class some idea of the financial conditions. Appropriate remarks were made concerning the success of the basketball team, and the business of the meeting was called to order.

Plans for the next class get-together were considered, and although many divergent opinions were offered it was finally decided that a dinner would be the most successful manner of carrying on the entertainment scheme. The date was set for the early weeks of February.

Hart House Quintet Plays in Washington

The Canadian Minister at Washington and Mrs. Massey have invited the famous Hart House String Quartet, Canada's foremost musical organization, to give a program at the Legation on February 15th. This will be the Quartet's fifth appearance before the social and diplomatic elite of Washington.

The Bulgarian Students' Fund

PRINTED in this issue is a letter from a reader, who wishes to be anonymous, with regard to the appeal which appeared in the editorial column of the Daily yesterday. That person encloses a subscription which it is desired should be forwarded on to the International Student Service.

Previously any subscriptions that had been collected in McGill for that institution had been through the means of the Student Christian Association, but it is felt that the scope which this appeal makes is much wider than any sectarian or denominational group. Pursuant of this theme the Managing Board of the Daily feel that it would be in the interest of all concerned if it, being neutral in attitude but well wishing in support, should sponsor the appeal.

Thus it announces that it opens what it will call "The Bulgarian Students' Fund". Subscriptions may be sent to the Bulgarian Students' Fund, c.o. the McGill Daily, or handed in so addressed to the Tuck Shop at the Union. Contributors may be anonymous or otherwise and the lists of the fund will be published Daily. A committee of students interested in student matters of international import will be asked to co-operate with the Fund.

Some months ago we showed our enthusiasm with regard to one whom the University had honored for his great work in international fields. Today we shall be thinking of the epoch making conference which is being held in London, England, having as its basis international amity. We as McGill students can show something of our international attitude by supporting the Bulgarian Students' Fund.

The Naval Conference

ALL roads lead to London, runs the old adage but today it will be more than roads for eyes, and ears too, will be strained to gather news of the opening of the London Naval Conference. Some there may be who reading this may have heard the message of the King as it was broadcast at early hours this morning. It is the enthusiasm of such people who will give the arbitrators the sense of feeling that they have the opinion of the public behind them in the working out of the great enterprise which they have been called upon to do.

Importance seems to be the undertone that is permeating the whole conference. Leading counsellors called from the mighty nations of the world meet in the Royal Gallery of the House of Lords. Their work is opened by imposing ceremony and headed in welcome by the King. Importance it must be, for schemes made now will have material effect upon us, who are students now but who will have to live to carry on the ideals which called for the conference.

Since the Treaty of Versailles men have met and schemed that the peace of the world might not be threatened again but we dare to suggest that no conference so great has ever been called. Lessons have been learned with regard to the attitudes of various nations. Washington of 1921 gave treaties that fixed a ratio with regard to the superpowers of the larger nations but it was only a part of the work, and as two of the nations involved were

beginning to disregard to capabilities of the capital ships it was foreseen that other sections of the navies must be considered.

Consequently the parleys of Geneva of 1927 came as a natural sequence and the deadlock which was reached stood out as an ill omen for any other similar conference that might be called. The question was one of cruisers. Cruisers are essential, it is claimed, for the safety of a nation's commercial sealanes, and as a nation depends upon its trade the cruisers were essential. And the greater the trade the more cruisers needed. Thus the deadlock.

But the London Naval Conference has not been called for any specific branch of the navies involved. It is to deal with navies as such. All types of vessels will be considered. As the question of navies is handled it will be with the attitude not only of reduction, but of reduction and limitation.

As the delegates have gone to England they have declared their intentions of attitude and of aspiration. Each country has made known its program of what it holds for its ideal. There appear to be snags which might cause some tripping along what we all hope to be a smooth running path.

But all the work of the question of limitation and reduction of armaments must not be left to those who meet at periodic intervals to discuss them. It must be those who are left behind in the lands involved, who must make it their duty to keep alight the torch which others have lit. The conference will be broadcast thus showing that the days of secret diplomacy are waning. And being made public to the world, the world must take notice.

College Snaggers

By Noji Fujimurishasa.

To the Editor McGill Daily, wishing him all prospects for a hard winter and a sloppy New Year.

Dearest Sir,

For many months long since past my golden thoughts has not been proclaimed in Honorable Daily, nor has my pen been active due to the lack of a pen-nib. I have been celebrate New Years with many high balls with disastrous results, for

I have spent them last three weeks at the fashionable Hotel Bordeaux which same contain rooms without baths \$2.50 and up, however no complaints can I offer, for the accommodation

which them hotel offer are very good inspite of fact that the Ancient Order of the Sablefrowers are holding a convention there.

The hotel manager, a short man with a corporation like that of the City of Westmount, tell me that I have ex-celled myself and that I am let out on probation, but I think he make a mistook and mean prohibition, for I decide, with many swears on the Honorable book of Confucius, never again until the next time to taste them fiery liquids.

Now that I am back with the kollums of the McGill Daily in body if not in spirits, I will say a few words in as few words as possible. My article for this week will be a most famous one as it make the deal with "Womens' Rights" at McGill University. The reason for why I pen this article are in the hopes that some girl who want womens' rights but don't know why, will ex-postulate clever letter in the Daily giving honorable slam to yours trolly.

Last evening my talafome go jungle jungle and a femule voice say on the other end "Hi, I want to confab with Noji Fujimurishasa." "Spoking", says I, in voice of deep shock, thinking this are one of the girls I didn't take to the Engineer's Frolick, "broadcast". "Well" say she in a chocolate voice with a hard centre, "this are Miss Dow speaking. I are the corresponding secretary for the Society for Womens' Writes". "I hope I discover you Ale and Hearty", say I, trying to make pun on her esteemable name, but she punish me severely with her tongue for that. "What can I do for you?" I effervesce, trying to pour oil in the troubled crank case, "Well", she dilate, "I want you to use your influence with them Student Councils and get us womens' rights". "The only councils I are acquaint with are British Consuls", say I, pulling a hot one, "but, getting down to brass bands, what are these Womens' Rights what you make great clamour for?" "Well, we don't know what we want", she fume, "but we want it just the same. We want smokers same as the men, free access to the pool and billiard rooms in the Union, representation on the rugby squad, and full control of the Daily". "But", I argufy, "if you were full, you would be too drunk to have control of the Daily". "You make me tired", say she. "I know", say I, "you have been snoring at me for the last 1/2 hour". With that she bang down the ear-piece so I wont hear harsh words she have to say in my favour.

Now my advice to them Students Councils is to give the women representation on the Council, but don't tell them when the meetings are to be. That will smooth all difficulties over and will earn the gratitude of the University's children, for as the Honorable William Shakesworth (or Waordspere, I don't know which) says, "More sharper than the serpent's thanks are the thoughts of a toothless child".

Yours till it snows ink,

Noji Fujimurishasa.

Aren't We All...?

Being the frenzied thoughts of
Leo Roberto

ON THE INFERIORITY COMPLEX

I hear much said of inferiority and superiority. There follows my interpretation of the Anglo-American literature concerning the inferiority complex. An intricate fixation of behaviour which may be repressed and compensated for in abnormal ways is an inferiority complex.

Let me draw the ideal picture. Suppose that an individual remains in his shell just like a clam at all times, figuratively speaking. By remaining in his shell at all times I mean that this person, as exemplified by a certain student, occupies the same seat in the classroom at each lecture; between lectures he stands in a certain corner of the corridor or smoking room. He always walks along the campus and streets unaccompanied by any of his classmates or by any of the co-eds.

He dines alone. If he would dare to attend the theatre or other sites of amusement our individual would again be seen alone. In short, this person has an inferiority complex. As regards his accomplishments, they are either multiple or few in number. This human excels or is at the bottom of the class because his habits are commensurate with his behaviour. The conclusion which one would draw in this instance is brief. Our apparently inferior person is really superior to the average. His unconscious or conscious repressions, as the case may be, are holding him down.

Another concrete example of the inferiority complex is demonstrated by one of our professors. There are many among our intelligentsia who follow in this man's footsteps as regard false inferior attitude. This man, in particular, has an incomparable command of his subject matter. There are times however, when he does not impress me.

To begin with, Professor Timid will enter the lecture room five minutes after the hour; his countenance will be flushed and this redness will increase as he stammeringly introduces his topic of his one hour talk. As Professor continues talking he will fix his gaze on one student in particular. His attention will not be focussed on the same student the following day but rather on another member of the class. In short, Professor Timid in delivering a lecture talks to one student for an hour.

I know that this well-educated and versed personage has an inferiority complex. Two days ago following the usual lecture, he revealed his true nature. Our superior professor bummed a cigarette from me and drew me into a pleasant conversation on his favorite subject. I know then that I was speaking to a man, and reviewing my experience with people under somewhat similar circumstances and of the same characteristics I felt satisfied to agree with Goethe:—

"Bei den Besten

Sass ich unter zufriednen Gasten
Ihr Frommheit hab ich unverdrossen
Niemals bestohlen, immer genossen."

In the final analysis of the inferiority complex it should appear obvious that whenever one meets a person who exhibits the afore said conclusive manifestations, then that person is above the average central tendency of the population at large. Furthermore it must be remembered that the happy average is he who strikes the pleasant medium between inferiority and superiority.

With the best

I sat amongst the satisfied guests.
I have not wearied of their pleasant times
Never stolen them, always enjoyed them.
Criticisms of this topic are welcome but I prefer them to be concise, and if possible, illustrated in colours.

My next article will appear in two or more installments, entitled "The treatment of acute alcoholism in females."

Leo Roberto.

Correspondence

ANSWERS APPEAL

The Editor,
McGill Daily,
Dear Sir,

I was indeed surprised when I read your editorial this morning entitled "An Appeal". The case which you presented to us was one of which students on this side of the Atlantic should be made more cognizant, and having learned of the facts they cannot but do anything other than try and do their best for the students who find themselves in such a predicament in Bulgaria.

As one who has seen something of the condition of students in Europe generally, I feel that I can do a little by a contribution. Your statement made no reference to any authority to whom money should be sent. In this case I have enclosed ten dollars (\$10) which I will ask you to forward on to the I.S.B., for with your knowledge of the matter you would know the proper channels.

Wishing you the best of success in your appeal.
Yours sincerely,
Well Wisher.

Shooting Stars - -

"Duck: I wouldn't want my husband to see us together."

"Sno use. He's a duck hunter."

She was only a butcher's daughter, but she played for big stakes.

Professor—"What did you find out about the salivary glands?"
Coed—"Nothing at all, professor. They're so darn secretive."

And then there is the home brew song: "You ferment for me."

Put two and two together and the result is always the same—bridge.

There is also the flopping song—"Hydrant I dwell in marble halls."

Doing the Shows

"Condemned" — Princess

FINE acting by Dudley Digges, Ann Harding, and Ronald Colman, together with some very interesting camera work, make "Condemned," at the Princess this week, a picture well above the average. The theme is one of those devil's island affairs, but is on the whole well carried out. There are several good talking shorts.

The opening scenes afford a view how, according to the novel, prisoners sentenced to the notorious Devil's Island are transported there. One of the unfortunates happens to be Michel, played by Colman, an extremely finely built person who earned the sentence because of bank robberies. On arrival at the island he is picked out by the warden to act as houseboy for his home. The job proves rather attractive to Michel because the warden's wife, badly treated by the warden, becomes enamored of him.

The neighborhood scents the affair and the much-muttered rumor reaches the ears of the warden who, enraged and torn asunder by jealousy has Michel hurried into the solitary cell block. Michel, however, manages to escape, and together with another convict, eventually reaches Cayenne. It also happens that the warden has determined to teach his wife a lesson and packs her off back to France.

By some means or other Michel has arranged to meet her on the boat just prior to sailing and everything comes out according to plan, but not before several hot chases through jungle and water take place. Michel gets into her cabin and changes into civilian clothes, but as he makes his appearance on deck is apprehended by the warden and some guards. Michel's colleague drags the warden into the water and they both drown, while Michel is taken back to finish his sentence. But there is a happy reunion years later.

"The Delightful Rogue" — Orpheum

A PICTURE that borders on comic opera at times but which proves most amusing, is showing at the Orpheum this week. In "The Delightful Rogue" Rod La Rocque's voice reproduces very well. Due to a large extent to the good acoustics of the house.

The play centres around an island called Tapit, which, one deduces from the play, is likely located near Tahiti in the South Seas. Dettly the director draws his threads together, weaving the comic opera constabulary into the pattern of romance already begun by Nydra the dancer, and her so-so lover, a reformed wishy-washy lad who wants to marry her.

Nydra, not unknown in police records, believes her beau when he tells her nothing could happen that would ever mar their romance. Just about that time, the comic opera gendarmerie of Tapit, in which every private is a sergeant, pounces on Lastro the pirate, only to have the corsair's comrades arrest the arresters, and carry off Nydra's man to the boat.

Rod La Rocque was never better than as the suave and amorous pirate while Rita La Roy plays the feminine lead most effectively. The head of the comic strip police and the first mate on the boat also are worth more than passing mention.

Maccabaan Circle To Hear Graduates

First Meeting Will be Held
February 6th

At the Executive meeting of the Maccabaan Circle held yesterday afternoon, plans for the coming semester were drawn up. The first meeting of the year will be held on Sunday Feb. 2, the program being provided by McGill Graduates. Rabbi Bender will address the second gathering of the Circle on Sunday, Feb. 23. The subject of his disclosure will be "Why Palestine?" The annual business session and concluding assemblage is scheduled for the first Sunday in March.

The Inter-Menorah debate against Toronto University takes place this year at Toronto, sometime near the end of February, and the debaters to represent the "Mac" Circle will be chosen at the next meeting of the society.

Interesting Program
The alumni gathering on Sunday, Feb. 2 takes the form of a symposium. The program will be as follows:
"Moses Maimonides, life and works" Mr. Michael Garber.
"Moses Mendelson, life and works" Mr. Max Bernfeld.
"Maimonides and Mendelson, a contrast and comparison" Mr. Harvey Golden.

The meeting should prove a most interesting and instructive one, as all three of the speakers, in addition to being orators of note, are well versed in the subject allotted them.

McGill Puckmen Feature in "All College" Bill at Forum Tonight

Seniors Oppose U. of M; Juniors To Meet Loyola

Coupon No. 16 For Tonight's Home Games

BOTH SQUADS SET FOR DOUBLEHEADER

McGill Fighting for Beaubien Cup in Senior Tussle — Band to Play

TO-NIGHT'S "All College" night at the Forum. The Quebec Amateur Hockey Association have arranged a twin bill for local fans featuring McGill's senior and junior puck aggregation.

In the curtain raiser, Manager Dick Webster's red and white 'scoreless wonders' oppose Loyola, while in the second game McGill's senior hockeyists stack up against the University of Montreal sextet in what is expected to be the highlight affair of the evening.

Student coupon no. 16 will be honored for admission and a large crowd of McGill supporters will most likely witness the tussles, now that the mid-term examinations are over. The University band and Max Ford, cheerleader, have promised to be on deck in order to make the night a red and white success.

Seniors vs. U. of M.

When the McGill seniors play the French college boys tonight, the redmen will be out to avenge a former 3 to 2 defeat that the blue and gold handed them earlier in the season. The Beaubien Cup, emblematic of hockey supremacy between these two institutions, will also be at stake. At present the University of Montreal have a strangle hold of the trophy, and all they need tonight is a tie to clinch the coveted silverware. On the other hand, the redmen have just returned from a successful visit to Toronto where they put up one of their best performances in years when they held the far-famed Varsity squad to a two-all tie, and nearly came out with a win. Should they play the same brand of hockey that was displayed in Toronto, the McGill men will most assuredly give U. of M. something to worry over and the fans a run for their money. It certainly will be a great battle.

Redmen Intact

The redmen came out of the Varsity struggle quite harmless even though the going was at times quite rough, and they will be at full strength for tonight's fray. Ralph St. Germain, star of the Varsity tussle, will be at centre with Robertson and Farquharson, McGill's rangy forwards on the front line. Captain McTeer and Bert McGilivray, who scored his first goal of the season against the blue and white will hold down the defense position, while the old reliable Maurice Powers will guard the McGill nets. For relief work, Ward and Granger will be available at the wing positions, with Hutchins and Painter for the defense. Klein will act as understudy to Powers.

Loyola vs. McGill Juniors

In the first game of the evening McGill's junior hockeyists will make their first appearance before the howling mob when they play the Maroon-clad warriors representing Loyola. So far the red junior team has showed up very well in their league, and although they have no wins to their credit, they have no losses, having tied all their games. In six keenly-contested games, the redmen have only been scored upon three times, and Captain Hollo McHugh, in goal, has been termed the junior shut-out king.

Manager Webster announces a well-balanced line-up, including Max Bell of junior rugby fame and D. E. Johnson on the defense. Willmott, Calder, Haines, G. Johnson, Hunt, Ebbitt and Mahaffy will alternate on the front line and may be counted upon to give a good display of themselves. Bernard Rubin will sub for McHugh.

All in all, tonight's fans may be assured that they will see two good performances on the part of the red and white squads who are eager to demonstrate their wares before their own student body.

The Line-up

Seniors	Goal	Juniors
Powers	McHugh	McHugh
McTeer	Defense	Bell
McGilivray	Center	D. Johnson
St. Germain	Wing	G. Johnson
Robertson	Wing	Haines
Farquharson	Subs.	Willmott
Ward		Calder

Red Custodian

Maurice Powers, stellar McGill senior goalkeeper, who will be seen in the nets against U. of M. tonight at the Forum.

Science 2 Cage Squad Victors

Defeat Commerce Sophs, 14 to 10, in Rough and Ragged Contest

Science 2 vanquished Commerce 2 in a fast basketball game last night by the score of 14 to 10. The rough playing of the business men finally decided the game in Science's favour. Referee Doody called 10 fouls against Commerce and 3 against Science. The shooting of the Science basketballers resulted in the tallying of 6 out of 10 fouls while the Commerce drew a blank. Crabtree and Hollingsworth were the worst offenders in fouling.

The first half opened with fast combination plays by both teams. Science played a steady clean game and took advantage of the repeated fouling by Commerce. Mills netted 2 baskets for Science on long shots. The period ended with the score standing at 8-6 for Science.

The second half was keenly contested throughout, Commerce having the better of the play. The score was tied until the last five minutes of play when Science forged ahead with a 2 basket lead. The game ended with the plumbers forcing the play.

Union Court Is Ready For Play

Badminton Club Committee Outlines Program

PROSPECTS BRIGHT

The committee of the McGill University Badminton Club has announced that the court in the Union ballroom, which has been in a state of semi-preparedness for some time is now ready for use. The object for this court is to relieve the congestion on the M.H.S. courts on Tuesdays and Thursdays and to provide accommodation for those who cannot turn up on these nights. It is open to club members only. Birds may be obtained at the tuck-shop, on the presentation of the membership card, for twenty cents. It is hoped that all those who have the time will avail themselves of this opportunity to improve their game.

The game which was scheduled to take place tomorrow against the Montreal Teachers Club, has been postponed until Thursday so a regular practice will be held tomorrow. So far as is known, the team which will face the Teachers is the same one which played the Artillery Club a few weeks ago though a few last-minute changes may be made. Announcement of such changes will appear in the Daily tomorrow or next day.

C. W. Argue, captain of the McGill club hopes to start a ladder competition in the near future. Singles and doubles tournaments have also been planned.

Interclass Hockey

Important changes managers please note. Due to the mild weather with so many postponed games the schedule starting from today will be completely changed. In order to carry out this new schedule classes will be called upon to play at inconvenient hours and it will necessarily cancel some practice periods, but it is hoped the classes will do their best to run the section off, even though several teams have to play 2 days in succession.

Commerce 3 is definitely out of the schedule since most of the hockeyists in that class play on McGill teams.

Managers are requested to take more care in filling out game reports as this is the only way to check up on medical examinations. A team playing a man not medically examined loses according to University rules; a man playing therefore the team failing to see that their manager turns in a report shall likewise lose the game.

Today Tues. 21

3-4 Arts 1 vs. Comm. 1.

6-7 Sc. 4 vs. Comm. 4.

If the hours for the above games are unsuitable, will the various class managers get in touch with Ronald Rowat, West. 4096, as soon as possible.

Coroner's Court

Both McGill senior and junior hockey squads will be seen in action tonight at the Forum in what is termed as an "all college" attraction. The student body will have an opportunity of witnessing their puck representatives, since coupon no. 16 will be used for admission. It is expected that a large turnout of red and white supporters will be on deck now that the mid-term exams have come to an end. The McGill Band has promised to be on hand, and with Max Ford leading the yells, the redmen should have plenty of support from the spectators.

The senior puckmen have returned from Varsity with a renewed vigour and seem to be at top form. They will be out to erase a former defeat at the hands of the French university squad, and at the same time step into the running for the Beaubien Cup. The juniors, better known as the 'scoreless wonders' will demonstrate their wares to the student body for the first time this year and will most likely give a good account of themselves when they tackle Loyola.

All in all, those red and white fans who journey to the Forum to-night may be assured of plenty of action from both McGill aggregations.

May success crown the efforts of the redmen.

Interfaculty Swimming

The posting of Cam Gardner's list of events on Friday afternoon was followed by a rush at the notice board on the part of those wishing to enter the Interfaculty meet Thursday. Several of the places on the Intercollegiate team are being decided on the results in this meet, and competition will be keen.

One event which will be watched with interest is the 100 yards breast stroke. Neil Buckley, who is sure of satisfying requirements for free style, but who is doubtful about this event, is making it a sort of trial to decide what events he will be entered in when McGill travels to Springfield and Brown on February 7th. If Neil can make a reasonable time, he will do both breast stroke and free style on the trip, and will simplify matters for Bill Sprenger, who is trying to pick a ten man team to be made up by seven men.

Fred Shaw, who has been swimming on the senior relay team, is favored to win the sprints, though he will be pressed in the hundred by Doug. Cross, Mersereau and Shackell, two polo forwards, are working for the 200 yard event. Shackell does the eight lengths every practice, and reduces his time about five seconds each time. Russ Payton, generally known as a manager, will also try this event, with the possible purpose of filling in, in one of the meets in the States.

Entries are still being received on the notice board at the K. of C. while they may also be handed to any one of the swimming team. The list of events is as follows: 50, 100, 200 and 400 yards free style; 100 yards back stroke; 100 yards breast stroke; Diving (mostly plain); Interfaculty 200 yards relay.

R.V.C. Basketball

Will the following please turn out for the practice today at 5 in the Montreal High School. Baillie, Chisholm, Peden, Craick, Carter, Ross, Lynch, Baal, Burris, Jones, Hay Thompson, Oswald, Clouston, Allen, Dodds, Dawson, Fairbourn, Harvie, Jellie, Perneyhough, Campbell, Tamarin, Stockton, Smart.

Basketball Play-offs

Today at 5:15, Arts 3 vs. Med 1. Consolation game at 6:00 between Com 1 and Science 1.

Wrestlers Beat Y.M.H.A Matmen

McGill Squad Win Keenly-contested Match By Two Bouts

The wrestling squad defeated the Y.M.H.A. by two bouts last night in a work-out held in the Y. gym. The bouts were fast and all very scientific.

The first bout, which resulted in a draw, was between Coplan (M) and Rabao (Y). Both fighters were very careful and took no chances. The next resulted in a win for Krause (Y) over Journey (M). Journey was very quick but Krause brought him to the mat with a arm lock.

Norwood (M) and Davis (Y) fought through two careful bouts to a draw. However in the next fight Goldman (M) defeated Airov by a decision given by the referee. In the 5th Lapin (M) brought Alconsant (Y) to the mat one minute after the start of the first round. Then Wilson (M) very quickly won

over Cohen (Y) by two falls in the first round.

Spooner (M), a new man, then fought Krause (Y) through two rounds of fast fighting to a draw. In the next bout Cohen (Y) defeated Chipman (M) by use of a very pretty head-hold. This was one of the best bouts of the evening both men being very well matched both in ability and in weight.

The next tussle which was between Schlessinger (M) and Baillie (Y) resulted in another draw both fighters seeing a good man in his opponent. The evening ended well with a win for McGill namely, that of Lovinson over Cohen. Lovinson got one fall and from then on it was easy to see what the outcome would be.

All in all, the performance of the McGill grapplers last night turned out to be a success from the point of a victory and of the experience gained. The redmen also had the new sensation of fighting on a rubber mat. This eliminates mat burns and is the latest innovation in wrestling activities. The Y.M.H.A. wrestlers will most likely be seen in action against the McGill aggregation on Monday night next in a return match.

Dinner Rings

Not for years has the mode held such wonderful possibilities to emphasize single, beautiful jewels against fashion's simplicity.

Bewilderingly beautiful rings are here to inspire you.

Outing Is Arranged For R.V.C. Students

Will Spend Week End at Isle-Aux-Cerfs

A week-end outing has been arranged for R.V.C. students by the Department of Physical Education for Women. It will be held on the week-end of February 1st at Isle Aux Cerfs.

The location for the outing was chosen because it is particularly advantageous, both from the point of view of the nearness and facilities for sports. It is planned to leave at 1:25 p.m. on Saturday and arrive at 1:25 p.m. on Sunday for recreation.

Ski-Joring
The activities will include tobogganing, skating, skiing, and ski-joring. Many indoor amusements will also be available.

The total cost of the trip will be six dollars. This will include everything. Students who wish to join the party should communicate at once with the P. E. Dept. at R.V.C.

This first trip is in the nature of an experiment and it is hoped to prove successful the department will endeavour to hold the outings at least once a month.

Book Exchange Big Success First Day

Algebra, Botany, and Economics Books in Demand

The book exchange reported a highly successful sale on the first day of their one week sale of second term books. A good many students took advantage of this opportunity to obtain books and a steady stream of clients poured into the exchange throughout the afternoon.

The total sales for the day amounted to a little over forty dollars which was considered to be very good under the circumstances. As the book exchange will remain open for the rest of the week it is hoped that all students will take the opportunity not only of acquiring books but of getting rid of their old ones.

Big Rush
The biggest rush of the afternoon was in first year Algebra books. Though there was a considerable supply of these books on hand they were quickly sold out and many eager buyers had to be turned aside. Anyone who has a copy of this book is urged to bring it down and is assured of a ready sale. Other books of which the demand was greater than the supply were Botany books and books for third and fourth year Economic courses.

The exchange will be open tomorrow from three to five thirty but will be open from two-thirty for the receipt of books.

Black Arts Are Expounded For Co-ed's Benefit

(Continued from page one)

And the search for the Philosopher's stone. We may read of magic love-potions and poisons, and also of the Black Mass. But by far the most horrible of supernatural traditions is that of the vampire, who is described as a "living mischievous and murderous dead body." This apparition is the body of one who died, but who cannot find rest, and who roams the earth at night, feeding upon the blood of humans.

Witchcraft
The other paper, read by Miss McLean, dealt with Spiritualism. It was pointed out, has been practised, in one form or another, throughout all the ages. The two chief connecting links between the mysticism of the Middle Ages and modern psychic research were the phenomena of witchcraft and the semi-mystical beliefs in magnetism. It was in the nineteenth century that a revival of spiritualism took place. The experiences of a woman, Piper, drew the attention of the scientific world towards this revival. The reader then dwelt briefly on hypnotism, clairvoyance, and telepathy. Sir A. C. Doyle places much importance on telepathy, and claims that it is the foundation for the theory of existence after death.

Other psychic phenomena, such as inspiration, sleep, dreams, and death are among the activities of the subconscious mind. Psychological researches in regard to the subject of death are not intended to satisfy religious.

Bunk Theory
The reader then gave some descriptions of psychical experiments as performed by the most noted spiritualists of the day. These experiments are very closely watched and tested, and the results obtained, such as finger-prints and the formations of the hand of a living personality, seemed to disprove the bunk theory.

It has been wondered what would have happened if modern science had not devolved from mathematics but from the outset had brought its forces to bear upon the consideration of the mind. It has been claimed that if this had been the case we should have today a psychology of which we can form no conception.

In conclusion the reader quoted Joseph Jastrow, who has endeavoured

Senior and Junior Hockeyists Attention

All junior hockeymen are asked to be at the Forum at 7:15 for tonight's game against Loyola. The seniors play in the second game against U. of Montreal. St. Germain, Farquharson, Robertson, McTeer, McGillivray, Powers, Hutchins, Granger, Painter, Ward, Hutchison and Klein please attend.

Expresses Doubt At Fish Story And Loses His Job

(Continued from page one)

the penalty imposed was twice that allowed under the law. William Jennings Bryan, the prosecution, declared his firm belief in every word written in the Bible. Afterwards Mr. Scope's sister was refused a post as teacher at the University of Kentucky. The war on Darwinism was thus carried from Tennessee into another State.

Dictates Of Etiquette Lead To Appointment

(Continued from page one)

Derick's Senior year at college. The Delta Sigma held a debate on "Woman Suffrage". This is probably the first time that this subject was discussed in Montreal. The first entertainment to which the men students were invited by the women was held in the Redpath Museum.

After forty years association with the Botanical Department, Professor Derick this year severed her active connection with the University, due to ill health.

Players' Club

Great Catherine

The cast of "Great Catherine" will rehearse at the following times in preparation for the final production on the evening of Monday the 27th:

Tuesday at 8 o'clock in Strathcona Hall.
Thursday at 8 o'clock at 2174 Sherbrooke St. W.
Saturday at 8 o'clock in Strathcona Hall.

After the memorable rehearsal of Thursday evening last, when almost the whole cast was present, the director released the following interview for exclusive publication in the Daily. "I am pleased. I am very pleased. The tackling of Walker and Close in Scene 3 has greatly improved. Edastan's broken field running at the end of Scene 2 is also much better, but what pleases me more than anything is that Varinka has finally discovered how to say 'Aha'."

Designs for costumes and scenery are called for in connection with the forthcoming Players' Club production "The Witch." The play takes place in Scandinavia during the sixteenth century. The costumes of the period offer great scope to those of artistic ability—however small. Designs should be submitted as soon as possible to Geo. Howe or Miss Alma Johnson or left in care of Bill Gentleman.

Rehearsals for "The Witch" in Strathcona Hall:
Tuesday (today) at 6:00 P.M.
Wednesday at 6:00 P.M.
Friday at 6:00 P.M.

When the following please turn out for the above rehearsals, and make every effort to arrive sharp on time. If everybody comes at exactly 6:00 P.M. the rehearsals will be able to get under way immediately, which will be to the satisfaction of everyone connected with the production. (It would be advisable for everybody to get something to eat before the rehearsal, as it may run through the usual dinner hour.)

The Misses Smart, Black, Nobbs, Parsons, McKibbin, and McPinhey. Messrs. Minnion, Draper, Dale, Duntan, Lapin, Walker, Whitton, Trimmingway.

Red & White Revue Notes

CHORUS

There will be a rehearsal of the chorus this afternoon in the ballroom of the Union at 5:15. Everyone is requested to be present as the final selection will probably be made after this rehearsal.

ed to disprove the theory of spiritualism but putting it in the same class as witchcraft. Following the readings remarks and anecdotes were supplied by those present notably Professor Adair, who told of the picture he had taken of himself with Shakespeare looking over his left shoulder. Refreshments were served at the conclusion of the meeting.

Goat: I heard your brother tried to get a political job. What's he doing now?

Sheep: Nothing. He got the job.

Captain Berlyn Gives Talk To McGill Flyers

(Continued from page one)

shoe-maker grows the leather." He also said that on this side of the Atlantic cotton is being used more than linen for aeroplane fabric.

Capt. Berlyn closed with a few words on the non-success of some forms of plywood construction when subjected to the rigors of our Canadian winters. This was first discovered when some mechanic with an inquiring turn of mind noticed the formation of some strange blisters on the sides of some of the machines. On creeping up to one of them and stabbing it with a pen-knife he was immediately drenched with the volumes of water which had collected between the layers of the plywood.

After the lecture the McGill Light Aeroplane Club held its first meeting since the New Year. The Flying Captain's report gave the total flying time so far this season as well over twenty-five hours, as compared with only three hours at this time last year. The two next lectures to be given to the club will be of a strictly non-technical nature, and are open to all students. These will be given by Capt. Stewart Graham of Ottawa, and will deal with practical conditions as found in the air.

Amendments At Meeting Ratified

(Continued from page one)

constitution of the Players' Club, which follows:

Amendment

It is moved by George V. V. Nicholls and seconded by John F. Porcous.

Article 4—"Officers" shall be amended to read as follows:

"The officers of the Club shall be: Honorary President, President, First Vice-President, Second Vice-President, Secretary, Treasurer and the chairman of the Workshop; and these officers shall constitute the executive."

Article 5, Paragraph 4 be amended to read as follows:

"The Second Vice-President shall, and the Secretary and the Chairman of the Workshop may, be elected from the female members. The election of these officers shall be ratified by the Honorary President, and the President of the Students' Council."

Article 10, Meetings, be amended to read as follows:

Annual Meeting
"An annual general meeting shall be held during the last two weeks in March, in the McGill Union, when reports of the President, the Secretary, the Treasurer, the Chairman of the Workshop, Production Manager and Business Manager shall be presented for ratification by the Club." ...and so on as the article stands at present.

"That the present Article 11 be made Article 12, and that Article 11 now read as follows:

"To develop actors, production men directors and playwrights and to encourage study and experimentation in the drama within the Club, a department, to be known as "the Workshop" shall consist of formation of play-reading groups, of the production of plays, or in any other manner that shall encourage these ends. The Workshop shall be under the direction of a chairman, supported or not by a committee, as the executive shall decide."

Notices

Notices must be legibly written and be in the McGill Daily office before eight o'clock on the night previous to publication. Brevity is essential. Under no circumstances will notices be accepted over the telephone.

R.V.C. '32

The class picture will be taken today at one o'clock on the steps of the R.V.C. All members of the class are asked to be on time.

BANJO CLUB

All members of the Banjo Club will please be at the practice tonight at 7 P.M. As Jerry Shea & Mr. Simpson will be present, it is necessary that a good showing be made.

John Mercer, Bud, Porteous, Percy Aikman, John Shortall, Howard Conner, Ted Sanction, Bill Barnes, Dave MacKenzie, Miller Peterson, Max Ford, Ed. Armstrong, Dick Sanction, John Bellier, "Red" Rudkin.

Any others who have been overlooked are asked to come.

DEBATING UNION EXECUTIVE
There will be a meeting of the Debating Union Executive in the Union tonight at 5:00 p.m. Important.

JOINT MEETING

A joint meeting of the R.V.C. and McGill Historical Clubs is scheduled for 8:15 in the R.V.C. Papers on the "Hudson Bay Co." and the "History of Printing" will be given by Miss

Langue and Mr. Markham respectively. All members are asked to attend.

SOCIETE FRANCAISE EXECUTIVE

There will be an important executive meeting today at one o'clock in the Women's Common Room of the Arts Building.

TENDERS WANTED

Tenders are called for an orchestra to play at the Medical Dance on February 28th. They will be received by E. C. Stuart, Med. 1 until January 25th.

BOOK EXCHANGE

From 3 until 5:30 o'clock daily for the rest of the week, the Book Exchange will be open in the basement of the Union for the annual January sale of second term books. Students having such books for sale are asked to bring them to the office of the Exchange after 4:30 on Monday or on the succeeding days.

DELTA SIGMA MEETING

The next meeting of the Delta Sigma Society will be held on Thursday Jan. 23 at 4 o'clock P.M. in the R.V.C. Common Room. An Impromptu Speaking & Debating Contest is to take place and a wide range of subjects will be offered. Each speech will be of two minutes duration. Those wishing to participate are asked to sign the lists posted in the Arts Building or R.V.C.

HISTORICAL CLUB

There will be a joint meeting of the Historical Club of the R.V.C. and the McGill Historical Club at the Royal Victoria College on Tuesday evening at 8:15. Miss Adele Langue

and Mr. O. S. Markham will deliver a paper on "The Hudson Bay Co." and the "History of Printing." Both speakers have a thorough knowledge of their respective subjects and the papers will undoubtedly be of a very high calibre. This is the first meeting of either club for the new term and all members of both organizations are expected to turn out in full force.

MCGILL ORIENTAL CLUB

On Wednesday, Jan. 22, the McGill Oriental Club will hold its fourth regular meeting. The meeting will be called in Room B of the Strathcona Hall at 8 p.m. sharp. Three papers on Judaism, Christianity, and Mohammedism are to be read by Messrs. Perelmutter, Kerr, and Zlotnick respectively. Prof. Brodie Brockwell, honorary president of the club, Dr. Gordon and Rabbi Berger, honorary vice-presidents, will also be present. Everybody welcome—no omission.

Westmount Thespians

Professor Paul P. McCullagh of the Department of Classics will be the speaker at the supper meeting of the

Westmount Thespians this evening at 6:30 o'clock. "A Bicycle Trip Through England" will be the topic of Professor McCullagh's address.

ENGLISH LITERATURE SOCIETY
The English Literature Society will hold its next meeting at 4 o'clock tomorrow in room 39 of the Arts Building. T. W. L. MacDermott, assistant professor of history and editor of the McGill News, will address the society on Literary Criticism in Canada.

DELTA SIGMA MEETING

The next meeting of the Delta Sigma Society will be held on Thursday Jan. 23 at 4 p.m. in the R.V.C. Common Room. An Impromptu Speaking Contest is to take place and a wide range of subjects will be offered. Each speech will be of two minutes duration and prizes will be given. Those wishing to participate are asked to sign the lists posted in the Arts Building or R.V.C.

BANDSMEN

The Band will play at the hockey game against U. of M. tonight. Everyone out at 8 P.M. Sweaters and caps to be worn.

The picture of the band will be taken at Notman's on Wednesday. Full uniform must be worn including white trousers, black bow-tie and black shoes. Every man must also bring his instrument.

PHILOSOPHICAL SOCIETY

Prof. J. S. Foster of the Physics Department will address the Philosophical Society on Wednesday, Jan. 22, at 8 P.M. in Room 44 of the Arts Building.

His subject is "The Quantum Theory" as it is treated in Eddington's "Nature of the Physical World." This meeting is important in view of the approaching visit of Prof. F. C. S. Northrop of Yale University who will discuss "The Philosophical Consequences of recent theories of Physics."

CHORAL & OPERATIC SOCIETY

There will be a meeting of the Choral and Operatic Society on Thursday 8:15 P.M. in Strathcona Hall. The executive will meet Wednesday at 5 P.M. in the Conservatorium.

S.C.A. of R.V.C.

The weekly Cabinet meeting will be held as usual today at one o'clock. All members are urged to be present.

CHESS CLUB

There will be a meeting of the Chess Club on Wednesday at 5 p.m. in the Lounge Room of the Union. All members are urged to be present. The meeting will be followed by the regular tournament.

R.V.C. MUSIC CLUB EXECUTIVE

The picture of the R.V.C. Music

Club Executive will be taken at Notman's at 1:45 p.m. Jan. 22. The following turn up with their gowns: M. Hissonet, D. Brown, G. Peden, J. MacDonald, M. Hadwin, C. Graham, E. Morell, M. Magwood, and D. Bascal.

M.W.S.A.A. EXECUTIVE

The annual picture of the M.W.S.A.A. will be taken at Notman's Thursday Jan. 23 at 1 P.M. The following turn up with their gowns: M. Crabtree, M. Roberts, H. Thompson, L. Newman, J. Holland, B. Ferney, L. and E. Cornell.

SCARLET KEY

A meeting of the Scarlet Key Society will be held in the Music Room of the McGill Union on Wednesday, Jan. 22 at 5:00 P.M.

R.V.C.

The third of a series of Hygiene lectures for the Women students of First Year will be held on January 29th at 5 o'clock at R.V.C. Although these lectures are compulsory for all First Year women, upperclassmen are cordially invited should the subject be of interest to them.

The subject of this month's lecture will be "Exercise." In preparation for this lecture, moving pictures of various athletic activities have been taken and will be shown. The students of M.S.P.E. will feature in Archery, Track & Field Athletics, and Field Hockey. R.V.C. students will be starring in Basketball and Badminton. All pictures are taken on the McGill women exclusively, with various settings familiar to all undergraduates.

Z. Slack,

Asst. Physical Director for Women.

ARTISTS ATTENTION

Designs for costumes and scenery are called for in connection with the forthcoming Players' Club production, "The Witch." The play takes place in Scandinavia during the sixteenth century. The costumes of the period offer great scope to those of artistic ability. Designs should be submitted as soon as possible to Geo. Howe or Alma Johnson or left in care of Bill Gentleman.

M. HEBERT

1420 VICTORIA STREET

LANCASTER 5057

"Here Come the Elephants!"

DO YOU remember how you used to be on the job bright and early to see the circus parade? Remember how you thrilled as the lions, tigers, and the big, lumbering elephants passed in review? How the horses, the blare of the bands, the antics of the clowns, and the glitter of it all inspired you with a fervid determination to see the real show—the big performance in the tent?

You didn't realize it then, but you were getting a lot out of an attractive advertisement.

Perhaps you don't realize it now, but other advertisements, just as attractive, just as interesting and far more valuable to you, parade daily before you in the columns of this paper.

The merchants and makers of everything you want or need, here display before you their most attractive wares. It is truly "the greatest show on earth."

The whole purpose of any advertisement is to excite your curiosity, gain your interest, arouse your desire; to tell you something you don't know; to remind you of something you have forgotten; to convince you of something over which you have been hesitating.

In short, the purpose of an advertisement is, in one way or another, to make you happier.

Read the advertisements and see if that isn't so?
